

**“People learn best when they enjoy the process!”**

**Team Building ~ Communication ~ Motivation**

When I was a musician, communication was critical. If just one musician played in a different key, different tempo or different style—the result would be noise. I found in business poor communication also resulted in noise. Unfortunately, many organizations have become accustomed to the “noise”.

The keys to a thriving business culture in this economy are engaging our people, improving the team process and finding the right prize. Let’s begin the process of fixing the “noise”.

Presentations consist of engaging exercises, activities, handouts, game shows, assessments and debriefs. Interaction is the key to adult learning, and we guarantee everyone will be able to participate. All activities are non-strenuous and can be designed to meet your logistic needs.

*Thank you so much for participating in our Region 1 retreat. Your presentation was exactly what we were looking for to close our program.*

Daniel Borone  
Swissotel, Boston

*...you gave 150% and it definitely showed.*

Lisa Murphy  
Goodwill Industries

*The education that you provided was an essential part of the evening. Thank you again for your hard work and expertise.*
